Unfailing Specific for Liver Disease.

SYMPTOMS: Bitter or bad taste in mouth; tongue coated white or covered with a brown fur; pain in the back, sides, or joints—often mistaken for Rheumatism; sour stomach; loss of appetite; sometimes nausea and water-brash, or indigestion; flatulency and acid eructations; bowels alternately constipated and lax; headache; loss of memory, with a painful sensation of having failed to do something which ought to have been done; debility; low spirits; a thick, yellow appearance of the skin and eyes; a dry cough; fever; restlessness; the urine is scanty and high colored, and, if allowed to stand, deposits a sediment.

SIMMONS' LIVER REGULATOR

(PURELY VEGETABLE)
Is generally used in the South to arouse the Torpid Liver to a healthy action.
It acts with extraordinary efficacy on the
LIVER, KIDNEYS,
AND BOWELS.

AS EFFECTUAL SPECIFIC FOR
Malaria, Bowel Complaints, Sick Headache, Dyspepsia, Constipation, Biliousness, Kidney Affections, Jaundice, Mental Depression, Colic.

Endorsed by the use of 7 Millions of Bottles, as
THE BEST FAMILY MEDICINE
for Children, for Adults, and for the Aged.
ONLY GENUINE
has our Z Stamp in red on front of Wrapper.

J. H. Zeilin & Co., Philadelphia, Pa.,
SOLE PROPRIETORS. Price, \$1.00.

NOTICE.

This is to certify that on or about the 15th day of June, 1884, I took possession of, and located as a home that certain surveyed Public Land of the United States, designed as follows, to wit: Bounding lines, commencing at a pile of stones, or monument about 300 yards south of the rim of the Grand Canyon of the Colorado in the Coconino Forest, and near the trail known as the "Hance Trail" leads down into the Grand Canyon aforesaid, and running thence west one mile, on a line marked out by blazes or scalps on trees to another monument of stones, thence south $\frac{1}{2}$ of a mile by a line designed as above to a 3rd monument, thence east one mile by another line designed as above to another, a 4th monument of stones, and thence north to place of beginning by a line designed as above. All of which I hereby declare my intention to claim as a home under the public land laws of the United States.

STOCK NOTES.

The ranges in Tonto Basin are in a magnificent condition.

The American Cattle Trust company is but little heard of now.

Over 100,000 horses are used in the street cars of the United States.

The Los Angeles real estate men sell the climate and throw in the land.

The outlook for the range cattle industry is better than it ever was before.

Lands intended for alfalfa should be plowed in the fall and plowed deeply.

Chicago now receives an average of 6,000 head of cattle more than this time last year.

Texas fever is doing considerable damage among cattle in some parts of Illinois.

It is said that Phil. Armour will build a packing house at St. Joseph which will cost \$500,000.

Almost 1000 head of cattle have been killed in Westchester county on account of pleuro-pneumonia.

Some corn-fed Texas cattle have recently sold in Chicago at \$4. A few loads of distillery fed stock sold up to \$4.50.

About 1,000 head of cattle have been killed in Westchester county. New York state, in trying to stamp out pneumonia.

The Atchinson, Topeka and Santa Fe railroad has voluntarily reduced the freight rate on cattle to Kansas City \$17.50 a car.

The exports of live stock and dressed meats from Boston for the eight markets last week were 1,313, cattle and 3,700 quarters of beef.

Not a single case of acute pleuro-pneumonia has been discovered in Chicago since July 10. It is thought the disease has been stamped out.

The star of the live stock empire is moving west. Kansas City will shortly assert her pre-eminence as the biggest live stock market in America.

American live cattle are still selling in English markets at the wretched price of 10@11c, estimated dressed weight. Dressed beef is dull at 17 $\frac{1}{2}$ @17 $\frac{3}{4}$ c.

The Gila Co. Association is at last thoroughly aroused to the necessity of putting down cattle stealing, and has organized a detective bureau for that purpose.

Pomeroy, Pomeroy & Miller have sold out their well known ranch in the Superstition mountains, Arizona, and will engage in the stock business in Mexico hereafter.

The Barton Stock Car Works, with a plant worth about \$500,000, and employing 1,000 men, will be located at Wichita, Kansas. Kansas City was a competitor of Wichita to secure the works.

England is said to have a cow to eight and a half persons, France one cow to three and one third, and America to two and two thirds persons. America is far ahead on the cow. —Nevada Silver State.

It is stated that foreign hides are being imported into this country in large quantities. As the hide business is an important factor in the range cattle industry live stock associations should petition congress to levy an import tax sufficient to restrict such importations. —Sugarbrush Stockman.

Next year's round-up of cattle of the Colorado range will probably be the last, if the Denver Republican is correct. Cattle raising on the range exclusively is said to be a thing of the past in Colorado the change having been brought about by farmers settling on the grazing land, which they are taking up under the homestead and timber-culture laws.

In spite of the speyed heifers the run of beef to market will not be so great next year. In the meantime, the increase of population goes on, business revives, the work people are employed, and when they work they eat meat. Mid-winter will witness a marked improvement in beef prices and a decided reaction in favor of cattle. —Texas Stockman.

HORSE TALK.

Almost has twenty-two sons that have sired 230 trotters.

The first time Maud S. was hitched to a sulky this year she trotted a mile in 2:15 $\frac{1}{2}$.

The importation of American bacon into Holland is only about one-fifth as large as it was seven or eight years ago.

The owner of Johnson offers to match this wonderful horse against any pacing or trotting horse in the world for \$1,000 to \$10,000 a side.

Monday night of last week fire destroyed one of the large new barns near the entrance to the stock yards in Chicago. It contained about 6,000 tons of hay, the largest part of which was rendered worthless. The origin of the fire is a mystery.

Miss Annie Thomas, of Billings, Montana, never sits on a watering place piazza and grumbles because there are so few gentlemen, but she runs a 6,000 acre ranch and can lick

any dude that ever drew breath, with her left hand. —Morning Journal.

Speaking of the effects of horse-back riding Robert Bonner says: I used to work fifteen and sixteen hours a day and came near breaking down. My physician urged me to take horse-back exercise. I did so, and in that way became interested. Before I had been riding three months I could do more work in three hours than I was able to do before in ten or twelve. Formerly, I felt dull and stupid; after I took the out-door exercise I felt bright, active and ready for work.

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs, and Colds, but be sure to get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections. Trial bottle free at D. J. Brannen & Co's. Drug Store.

An Inebriate Official.

The Arizonian has the following concerning Pate Bolan a member of the Territorial Board of Equalization. Pate Bolan of Graham county, whose money is much better than his word, as many of the Phoenix merchants are willing to testify on the ground of uncollected accounts, is one member of the board. He went from Phoenix in a drunken condition, and it is presumed he kept up his lick in that direction ever since.

But now as to the trouble at Prescott. Our wide-mouth member, presumably drunk all the time, was sitting on the board, when the delegate from the cattlemen's association appeared and asked for the adoption of a certain schedule for the taxation of cattle. Pate found out that Graham county was not represented in the association. He arose and in language more forcible than elegant proceeded to berate the cattlemen. Fortunately for his own carcass the respectable members of the board, made the person from Graham take a seat.

Since then it is understood that a petition has been circulated in Prescott and Yavapai county asking the governor to remove the drunken Pate and as far as presented it has been universally signed. Zulick will drop to pieces through sheer rottenness if he does not change his cabinet.

Saved His Life.

Mr. D. I. Wilcoxson, of Horse Cave, Ky., says he was, for many years badly afflicted with Phthisis, also Diabetes; the pains were almost unendurable and would almost throw him into convulsions. He tried Electric Bitters and got relief from the first bottle and after taking six bottles, was entirely cured, and had gained in flesh eighteen pounds. Says he positively believes he would have died, had it not been for the relief afforded by Electric Bitters. Sold at fifty cents a bottle by D. J. Brannen & Co.

The Cattle Plague at Chicago.

The welcome intelligence is sent out that the authorities regard the work of stamping out pleuro-pneumonia at Chicago as practically complete. Over eight thousand animals have been slaughtered and no new cases have been discovered since July 1st. This record ought to satisfy the croakers who have so persistently maligning and abused the men who have been engaged in the work, and is a complete answer to the charge that they were simply keeping up a noise about the disease for the purpose of drawing salaries from the government. If the charge had been true they could easily have manufactured enough disease to have prolonged their work indefinitely. The history of the disease, however, shows that where the work of purifying and disinfecting diseased premises has not been thorough and complete it is likely to reappear even months after the last animal suspected of disease has been destroyed. We have faith to believe that no further danger need be apprehended at Chicago for the reason that the most capable men in the United States had charge of the work there, and they would not declare their work done so long as they believed a recurrence of an outbreak possible. We understand that eastern diseased centres will now receive their attention, and we will be glad to publish by the end of the year that pleuro-pneumonia has no abiding place in the United States. —Range Journal.

Do you suffer from scrofula, salt rheum, or other humors? Take Hood's Sarsaparilla, the great blood purifier. 100 doses one dollar.

Notice.

The regular annual meeting of the Arizona sheep breeders and wool growers association will be held at Grand Army Hall in Flagstaff, on Monday, September 26, 1887, at 10 o'clock, a. m., a full attendance is requested as business of importance will be transacted.
